RE: Christian Andreacchio Case

Dear Ms. Coleman,

My husband attempted to contact you several times but was unable to reach you and did not receive a return phone call. We were disappointed you did not attend the meeting with Chief Dubose on December 4th after you requested to be present but understand you are acclimating to your role as DA. Chief Dubose informed us today that you were wanting us to attend a meeting to include MBI and the AG office. I wanted to inform you that we have no desire or intention to attend a meeting with either agency. Their past actions in Christian's case has made it very clear their determination to stage his case as a suicide just as surely as Whitley, Dylan and others physically staged Christian. I have also spoken to jurors who were on the grand jury that heard Christian's case and they have validated my belief that his case was presented as a suicide. I spoke with Marvin Sanders who was the attorney with the AG office who presented Christian's case and he did not even know there was a forensic pathologist or crime scene reconstruction experts who were involved in Christian's case and who stated it was a homicide not suicide. He did inform me (by accident) that a video was made for the grand jurors demonstrating how it "was possible" that Christian killed himself. I need no further evidence that the AG office had an agenda and they carried it out as instructed.

I was hopeful with a change in the acting DA there would also be a change in the attitude toward Christian's case and you would support a thorough, honest investigation of the murder of my son but with your request to include MBI and the AG office it appears it will be business as usual and Bilbo obviously continues to have his hand in controlling the outcome of Christian's case. MPD has been very quick to place blame with the DA office as to their lack of investigating of Christian's case. They have repeatedly told us that nothing will ever be done as long as Bilbo is involved. In their words "Bilbo has a special interest in this case". I know Bilbo's special interest and I have shared that with MPD as well as the US Attorney Office. I will continue to share information with Mike Hurst's office until something is done about the obvious "buddy system" which is in place which protects select individuals from consequences for their criminal behavior. People in Meridian do not realize it is not only MPD to blame for the crime rate in Lauderdale County but also the DA office and their lack of prosecution of criminals. How many trials has there been in Lauderdale County in the past 10 years? Of those

trials how many were actually won? It is an election year approaching. I do not feel individuals can make informed decisions without statistics and facts being made public. Bilbo has indoctrinated the entire Meridian Police Department in "Bilbo 101" as Detective Arrington explained. Voters need to be aware they have been indoctrinated as well. To make my point, are you aware that Dylan Swearingen has been arrested 3 times in the past 5 years for DUI/possession but has never served a day of jail time? It is strange to me that criminals appear to get special treatment from the DA office but honest citizens are treated like criminals. And unless you have a reason to have contact with the DA office you live in a bubble of ignorance. That veil of ignorance needs to be lifted.

I have waited almost five years to find justice for Christian. I can wait a few more months to see progress on his case whether that is from your office, MPD or through outside sources. I will continue to fight for my son. I am saddened by all the families I have come in contact with who have been forced to accept the false narrative the DA office in collaboration with MPD have forced down their throat. It is those stories as well as Christian's that need to be told.

I wish you and your family a peaceful holiday season. I am optimistic 2019 will see change in both agencies as well as a honest resolution of Christian's case.

Sincerely,

A handwritten signature in cursive script, appearing to read "Rae Andreacchio".

Rae Andreacchio
